MontyCloud

MICROSOFT AZURE

See and secure every Azure environment

Azure environments grow fast and visibility rarely keeps up. MontyCloud brings every subscription into one place, gets you to full inventory in about 30 minutes, and runs Well-Architected, security, and compliance checks across all of them.

~30 min	28	1,250+	5
to full inventory	scoped permissions	daily security checks	pillars scored

WHAT MONTYCLOUD DOES ON AZURE

Least-privilege onboarding
Connect subscriptions with 28 scoped permissions, or bring your own service principal.

Inventory and visibility
Every resource across every subscription in one place.

Cost visibility and optimization
Act on Azure Advisor savings and reservation recommendations.

Azure Well-Architected reviews
Scored across all five pillars for a clear baseline.

Security Bot
1,250+ security checks every 24 hours across every subscription.

Compliance Bot
CIS, PCI DSS v4, FedRAMP, CMMC, and HITRUST/HIPAA, with audit-ready exports in the Advanced pack.

WHY RUN AZURE ON MONTYCLOUD

FOR IT TEAMS

Catch issues early
Problems surface before they become incidents.

Stay audit-ready
Compliance monitoring with audit-ready exports.

Control Azure spend
Savings and reservation recommendations.

FOR MSPS

Onboard customers fast
Full inventory in about 30 minutes.

Find revenue opportunities
Findings become follow-on work and services.

Keep what you built
Partner status and CSP billing stay yours.

Run Azure alongside AWS. Same view, same findings workflow, one process on every cloud.

See every Azure environment in one place.
